Education

Georgia State University *Atlanta, GA*
B.S. IN COMPUTER SCIENCE | CUMULATIVE GPA: 3.67 / 4.3 *September 2022 - May 2026 (Expected)*
- **Coursework:** Principles of Computer Science I, Object-Oriented Programming II, Computer Organization & Programming, Data Structures, System-Level Programming, Discrete Mathematics, Linear Algebra, Applied Probability & Statistics for Computer Science
- **Organizations:** Computer Science Club (2023-Present), Panther Dev Club (2023-Present), Cyberecurity Club (2024-Present)

Technical Skills

Programming Languages	Python, Java, C#, HTML/CSS, JavaScript, R
Frameworks & Libraries	React, React Native, Pandas, NumPy
Spoken Languages	English (Native), Urdu (Native)

Projects

Hajj & Umrah Toolkit
REACT NATIVE (HTML, CSS, JAVASCRIPT), XCODE *Dec 2023 - Present*
- Designed a user-centric UI for a comprehensive Umrah and Hajj guide app, catering to Muslim pilgrims through research and user feedback
- Developed and implemented essential features (prayer counter, checklist, sightseeing page) in collaboration with a 4-person team, resulting in improved usability and user experience for mobile app users

Fall of The Tyrant
C#, UNITY *Sep 2023 – Dec 2023*
- Actively participated in a 15-person team (Panther Dev Club) developing a semester-long pixel dungeon game using Unity and leveraged my elementary understanding of C# to program character movements and in-game interactions, solidifying my grasp of game development
- Thrived in a collaborative game development environment, adapting to diverse creative needs and translating gameplay concepts to enhance mechanics, exceeding personal weekly tasks

Homepage & Discord Bot
HTML, CSS, JAVASCRIPT, PYTHON *Sep 2023 - Dec 2023*
- Collaborated with a team of five members (Computer Science Club) to design, analyze, and implement essential features for a user-friendly club website, while also gaining exposure to full-stack languages
- Configured Amazon Web Services (AWS) to host the Discord bot 24/7, ensuring uninterrupted and reliable service, and implemented GitHub's API to link our Discord server with GitHub projects

Hackathons

IgniteFit | Hacklytics *Feb. 2023 | Atlanta, GA*
- Developed a management app with an integrated checkbox UI for workout planning, streamlining fitness tracking through user input, demonstrating foundational skills in app development and UI design

Experience

Publix Super Market *Alpharetta, GA*
DELI CLERK ASSISTANT *May 2022 – Aug 2022*
- Provided exceptional customer service at Publix Super Market's Deli, ensuring a welcoming atmosphere and boosting customer satisfaction
- Demonstrated adaptability and versatility by efficiently handling multiple tasks such as food preparation, cashier duties, and addressing customer inquiries to maintain service standards

Kumon Math & Reading Center *Cumming, GA*
COURSEWORK GRADER *May 2019 – July 2019*
- Meticulously graded and organized student coursework and homework, ensuring accurate and timely feedback for all students
- Demonstrated patience and empathy in assisting students with comprehension difficulties, fostering a supportive learning environment

Certifications

2024	**CompTIA A+** — Computing Technology Industry Association (CompTIA)	*In Progress*
2024	**AWS Certified Cloud Practitioner** — Amazon Web Services (AWS)	*In Progress*
2024	**Microsoft Certified: Azure Data Fundamentals** — Microsoft	*In Progress*
